Adams Poisoning Case.

New York, February 27.—The jury in the Adams poisoning case came in with its verdict at 8:43 p. m. It was as follows: "We find that the said Katherine J. Adams came to her death on December 23, 1898, in 61 West Eighty-sixth street, by poison by mercuric cyanide, administered by Harry S. Cornish, to whom said poison had been sent in a bottle of bromo-seltzer by Roland B. Moileux."

Colonel Fisher Resigns and Company D is Disbanded.

Colonel J. H. Fisher, commanding 1st Regiment, National Guard of Hawaii, has resigned. He intends making a trip to the Coast shortly. Colonel Fisher joined the Honolulu Rifles in 1883, when they were one company and the only white body of militia in the country. When they were disbanded in 1890 he had for some time been captain of company B. He started with the P.G. forces in 1893 as lieutenant colonel, and has now been colonel of the regiment, under the Republic of Hawaii, for some years. Neither the Government nor the men under him could ever have had anything against Colonel Fisher. He was always all right, deserving and holding the confidence of the Government together with the regard, amounting to affection, of the forces.

Company D has been disbanded owing to its having dropped into a state of inefficiency.

S. S. CITY OF PUEBLA.

Probably to Run in British American Line From Sound Ports.

Brief mention is made in the San Francisco Chronicle of the chartering of the steamer City of Puebla to run between Puget Sound ports and the Hawaiian Islands.

Col. Albert Whyte, on being informed of the report, said it was likely the Puebla was coming in the British American Line now operating the Garonne. No advice had been received at the local agency, but his own latest information was that the company was on the eve of chartering another large steamer.

The City of Puebla was one of the transports that visited Honolulu during the war with troops for Manila. She is a fine and well appointed steamship.

Two Sick Men.

William Woon, of the Hollister Drug Co. Ltd., has been very ill of typhoid malarial fever for the past eight weeks. He is lying at the Queen's hospital and, having passed the turn favorably last Sunday, is now happily improving.

David Dayton Jr. has been laid low, at the family home, for more than a week. His malady is malarial fever.

WANTS.

Ads. in this column will be inserted at 15 cents a line the first insertion; 10 cents second insertion; 5 cents a week and 50 cents a month. This is the cheapest advertising ever offered the people of Honolulu.

The City of Peking sails for China and Japan at 10 o'clock tonight.

The Golden Gate is taking on ballast at Brewer's wharf, preparatory to departure.

The Keanouh sails this afternoon for Kauai ports. She will take the foreign mail.

Now that the Edward O'Brien has turned over, men are at work stripping the copper from her bottom.

The Robert Lewers will get away about Friday. She hauled out into the stream from the Inter Island wharf this forenoon.

The C D Bryant did not get away yesterday. She took on a lot of bottles this forenoon and will probably sail for San Francisco this afternoon.

The Gaelic brought one of the largest shipments opium that has entered this port officially for many months. It consisted of 475 cases and the duty thereon will amount to \$116,850. The estimated gross value of the consignment is \$311,306. The Gaelic left Honolulu six hours ahead of the Australia and beat her into port by nearly seven hours.—S F Chronicle March 1.

Made Steamer Time

The bark S. C. Allen, which arrived here a few days ago from Honolulu, beat all records in the last four hours of her run to this port. Captain Johnson, who has unbounded faith in the speediness of his vessel, undertook to race the City of Peking into port. The steamer passed the bark about 2 o'clock in the afternoon when both vessels were about sixty miles from port. Captain Johnson crowded on all the sail his boat would carry, but the steamer soon disappeared. When the S. C. Allen came to anchor, however, in the quarantine grounds, Captain Johnson found that he had made the sixty miles in a little less than four hours, which satisfied him almost as much as if he had beaten the Peking into port.—S. F. Chronicle, Mar. 1.

New Northern Pacific Steamers.

Tacoma, Feb. 26.—President Hill of the Great Northern Railway is reported to have hired A. B. Wolvin of Duluth at \$40,000 a year to organize a new line of steamships to ply between Puget Sound and the Orient in connection with the Great Northern. Hill is not satisfied with his road's present connection with Nippon Yusen Kaisha, and is ambitious to establish a line of modern American steamships. Wolvin is expected to build or lease boats as rapidly as possible. He is one of the most expert lake traffic men, being president of the Zenith Transit Company, operating seven steamships on the Great Lakes, and connected with other lake transportation companies.

Sailing Ships in Collision.

The British ship Talus and the bark Ceylon came into collision yesterday morning just between the Heads. It was dead calm at the time, but there was a strong flood tide running. The Ceylon suffered considerably, but the limejuicer escaped with barely a scratch. Both vessels were bound in, the Ceylon from Honolulu and the Talus from Cardiff.—S. F. Chronicle, Feb. 27.

No Rain at Diamond Head.

Captain Christen at the Diamond Head station reports that, on Monday last, when the rain was heaviest at Waikiki and in town Monday, there was hardly enough to wet the ground out there. This is a very peculiar circumstance, considering the fact that the rain was general.

Diamond Head Sails.

The bark Diamond Head sailed from San Francisco for this port, Feb 27. In addition to her full cargo of general merchandise, the Diamond Head has thirty-three head of cattle, a large amount of hay and a patrol wagon for the police force here.

Cargo for Kahuai.

The schooner Ruby A Cousins sailed from Honolulu, Feb 26. She has the following merchandise: 3280 pkgs railroad material, 15 pkgs coal tar, 25 bbls fire-clay, 25,000 redwood posts, 9 pkgs machinery.
